LAS NOTICIAS DE NUESTRO ENTORNO

Valladolid.01/01/2012

Photo Exhibition January 2012

Our participants have organized a photo exhibition in the new Day Centre that INTRAS has just opened in Valladolid.

Figure 2: Firstly place your photo on the wall.

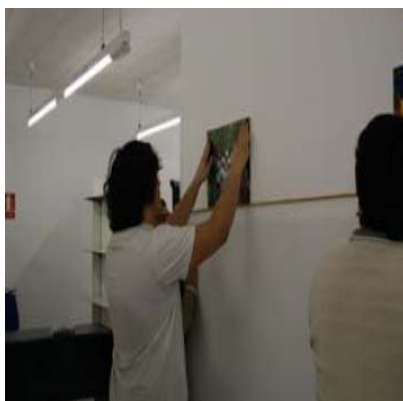

Figure 1: Then, put it straight in the wall not very close to the rest of photos

Figure 3: Make sure that all the photos are in their place and take a general look at them. Is everything ok?

The exhibition was composed by the photos that our pupils are making within the activities of the Youth Citizen Journalism project, so they were both the artists and the staff in charge of organizing the exhibition.

They learnt a lot of things about photo but also about marketing, as they had to think where were the best places to site the photos.
